SUMMARY

Final-year Computer Engineering student with a strong foundation in full-stack web and mobile development. Builds secure, user-friendly applications using the MERN stack and Kotlin, with hands-on experience in AWS Cloud Foundations and Firebase integration. Proven ability to deliver technical solutions through projects involving AES encryption and start-up portal design during academic and internship roles.

SKILLS

- Languages: Javascript, PHP, Python, Kotlin, HTML5, CSS.
- Frameworks: Bootstrap, Tailwind CSS, React.js, Node.js, Express.js.
- Databases: MongoDB, MySQL.
- Cloud, DevOps & Tools: AWS, Git & GitHub, Postman, VS Code.

INTERNSHIP

Compozent

15 Dec,2024 to 19 Jan,2025

My role in this internship was to learn more about app development and try to make a small app. I developed my skills in Kotlin and made a small app like messenger by connecting firebase to it as a database and login/sign-up activity.

PROJECTS

Cryptography: Communication Privacy with Encryption Technology ([Link](#))

The project is about the web chat application where the messages are encrypted using AES & Authentication using SHA-256 algorithm and stored same encrypted messages which is only visible to the person we are chatting with. The languages used are PHP and JavaScript with XAMPP.

Android Chat App ([Link](#))

Built a real-time Android chat application using Kotlin and Firebase with user authentication, one-to-one messaging, and live message synchronization.

EDUCATION

Shree L.R. Tiwari College of Engineering (Mumbai University)

2026 - Current

- Bachelor of Engineering in Computer Science (CGPA: 7.75)

Divine Child High School and Junior College

2022

- HSC in Science PCMB (68%)

St. Anthony's High School

2020

- SSC (79%)

ADDITIONAL INFORMATION

- Other Skills: Creativity, Critical Thinking, Communication, Problem-solving, Quick learner.
- Languages: English, Hindi.
- Certifications: Python for Data Science (NPTEL), AWS Academy Cloud Foundations (AWS Academy), Full Stack Developer Bootcamp (GeeksforGeeks).
